Check Your Top

*Safe check and documentation
of the truck roof*

***Do you know what are you carrying on
the truck roof?***

Snow and ice
depositions falling
from truck roofs
are annually
causing fatal and
deadly accidents.

A down falling ice plate easily breaks through
the windshield of a car.

An undetected
extra cargo on
your truck roof
can quickly
become a deadly
hazard to other
traffic participants.

Protect yourself and other road users by
frequently checking your rooftop
before departure!

CYT - Check Your Top

Check Your Top

The CYT – Check Your Top system enables a
safe check and documentation of the truck roof
via smartphone application.

The truck roof can be checked in the CYT
control area at selected rest areas of ASFINAG.
Via smartphone application, real-time pictures
are transmitted to your smartphone. If required
the truck roof can be cleaned at a scaffold, if
available. Finally, the trafficcapable roof can be
documented by storing the images on the
smartphone or tablet.

For an unambiguous assignment, location
information and certified time and date stamps
are added to the camera images.

The **CYT4asfinag** application can be used free of charge at all designated CYT – locations.

1.) Free download of CYT4asfinag app in the store

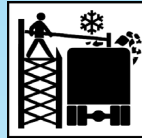

2.) Start the application and select CYT in the marked area

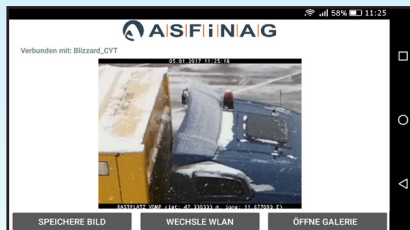

3.) Check the truck roof on snow and ice in the live images

4.) If required: Cleaning the roof

5.) Documentation of the roadworthy truck roof by storing the picture

6.) View the stored image in the gallery

CYT

Check Your Top

offers:

- + Free download of the app
- + Safe check of the truck roof
- + Documentation possibility of truck roof
